INVITATION

THE STEAME GOES HYBRID PROJECT

The STEAME GOES HYBRID project is a continuation of the STEAME project, coordinated by the Cyprus Mathematical Society. The aim of both projects is to design and develop STEAME Schools and future learning. STEAME stands for “Science, Technology, Engineering, Arts, Mathematics and Entrepreneurship”.

The STEAME GOES HYBRID project is developing innovative learning practices in the Digital ERA we live in, by developing new educational, learning and training methods for moving school based STEAME Project Based Learning (PBL) activities to online and distance STEAME PBL activities so to formulate a hybrid approach.

The coordinator is the Cyprus Mathematical Society and the partners are: Leafnet Ltd (Cyprus), DOUKAS School (Greece), University of the Aegean (Greece), Pedagogical University of Krakow (Poland), ITC Paole Morante Limbiate (Italy), European Digital Learning Network (Italy), Asociatia "Institutul Pentru Dezvoltarea Evaluarii in Educatie" (Romania).

To communicate with the project, write to info@steame-hybrid.eu

INVITATION TO THE STEAME-HYBRID POLICY RECOMMENDATIONS EVALUATION SURVEY

The STEAME Hybrid Consortium kindly invites you to participate in a survey regarding the [POLICY RECOMMENDATIONS](#) that were developed by the project's consortium.

The Policy Recommendations were designed as a reference document for key actors operating in the school sector, with the ambition to visualize the EU way towards the implementation of hybrid learning frameworks in schools, particularly related to STEAME activities. The suggested set of policy recommendations is based on a series of assumptions summarizing the view of the consortium on the aspects of policies to systematically implement hybrid education and how they should be managed and implemented including minimum technological infrastructure.

What does the project need from you?

Firstly, we invite you to study the [POLICY RECOMMENDATIONS](#), which you can find [here](#).

Secondly, we request your feedback on the list of the [POLICY RECOMMENDATIONS](#). Please find the evaluation survey [here](#).

All responses will be safeguarded by anonymity and be treated as strictly confidential. The responses will only be used for research purposes.
