17:45 – 18:15	Παρουσίαση μαθησιακής πλατφόρμας STEAME GOES HYBRID	(Θ. Οικονόμου – Ε. Μαργαρίτη)

The STEAME school of the future aims at the transformation of knowledge into abilities and skills through new structures, infrastructures and activities that meet the modern demands of education and the labour market. The presentation includes a model design of a STEAME school structure with proposed dynamic programs of actions and activities, learning and creativity plans, an educational program for teacher training, as well as new innovations that come from European funded programs with the main goal of learning/education.

The Intellectual Outputs of the STEAME goes HYBRID that were presented are the following:

- O1. Blueprint Guidelines for Hybrid STEAME activities (online and distance blended project-based learning)
- O2. Training Programme for facilitating the implementation of STEAME L&C Plans by SE teachers and Piloting the Blueprint Guidelines. STEAME-Hybrid Learning and Creativity Plans (6 samples)
- O3. STEAME HYBRID Blueprint at a glance: Policy Recommendations and School Label Development.
